New ongoing series! Part 1 of the Raphael flashback adventure arc "Attack on Area 51"! Expect old favorites and new surprises in this new ongoing series!

Between the events of *TMNT* #150 and the new *TMNT* #1, the Teenage Mutant Ninja Turtles found themselves at a crossroads, attempting to keep their family united while individually feeling the need to break away and explore life in a world that knows about mutants.

To clear his head, Raphael is heading west when a dormant enemy out for revenge on the Turtles engineers a dangerous detour to Area 51. When Raphael is held hostage with some unexpected old friends, his soul-searching quest mutates into a crisis as he brawls in the desert to keep the Earth Protection Force cache of coveted technology out of the wrong hands.

Will Raphael find his new purpose away from his brothers...or just more trouble than he can handle alone?

Tom Waltz, the TMNT mastermind and co-writer of *TMNT: The Last Ronin*, returns to tell brand-new stories about everyone's favorite anthropomorphic misfits with artist **Vincenzo Federici.**

Plus, writer **Erik Burnham** and fan-favorite *TMNT* artist **Mateus Santolouco** present a four-issue bonus backup: after the events of *The Untold Destiny of the Foot Clan*, can Casey Jones tolerate Karai's descent into ruthlessness, or will he turn his back on the Foot? The answer ripples into the upcoming action in Jason Aaron's *TMNT*!

Each arc of *Mutant Nation* will feature two stories exploring different corners of the TMNT universe, easily accessible to casual fans but with ties connecting the ongoing series and *Nightwatcher.*

From the mind of Tom Waltz, the legendary writer of *Teenage Mutant Ninja Turtles* and co-writer of *The Last Ronin*, comes a whole new spin on a classic myth!

Forget everything you think you know about Atlantis. The ancient civilization was once an idyllic island in the middle of the ocean, subject not just to the regular caprice of Mother Nature, but also under the threat—and protection—of kaiju! Mechagodzilla provides them with their one true protection against these monstrous forces, but is it enough when ambitious and evil members of the cultural elite try to summon a three-headed beast to take control? All bets are off when King Ghidorah swoops down from the skies. But its presence not only terrifies the island citizenry, it also awakens the King of the Monsters to emerge from its home deep below the waves. Can Godzilla prevent the legendary civilization from a watery grave?

In a sequel to "The Enterprise Incident," *The Enterprise Experiment* details the Federation's experiments with a Romulan cloaking device.

Also collected are two one-shots featuring Vulcans and the Gorn! A Starfleet starship arrives at a planet on the brink of its own destruction. A once peaceful society is now savage and warlike linking itself to the turmoiled past of the Vulcans. Then, after their shuttlecraft crash-lands on an uncharted planet, Captain Terrell and Commander Chekov calculate that their odds of survival are somewhat decreased when they find themselves facing off against an army of Gorn warriors.
